

## SUNSHINE 1100 Series

### HIGH SPEED TWO NEEDLE BOTTOM COVERSTITCH MACHINES

#### 1102

- Two needle, 6,4 mm, bottom coverstitch, belt loop making machines.
- Recubridora inferior de 2 agujas a 6,4 mm especial para hacer pasantes de pantalon.
- 2 Nadel, 3 Faden Unterdecknahtmaschine zum Nähen von Gürtelschlaufen, 6,4 mm.
- Machine à point de recouvrement inferieur, 2 aiguilles 6,4 mm, pour fabrication des passants.
- Macchina a base piana 2 aghi 6,4 mm. Copertura inferiore, senza differenziale, per confezionare pa

#### 1162 PMD

- Two needle, 6,4 mm, bottom coverstitch, flatbed machine with pulle, featuring both front and rear pullers. This machine is very usefull in more delicate flatbed elastic insertion operations such as underwear when it is desirable to trap the elastic in the hem rather than tacking the elastic onto the seam.
- Recubridora inferior de 2 agujas a 6,4 mm de base plana equipada con puller y alimentador de goma. Esta recubridora inferior es especialmente practica para la aplicación de elástico en ropa interior dobladillando la costura dejando el elástico dentro.
- 2 Nadel Flachbett-Unterdecknahtmaschine 6,4 mm. Ausgestattet mit Metering Device (obere Zumesseinrichtung) und hinterem Puller. Zum Annähen und Säumen von Gummiband.
- Machine à recouvrement inférieur, 2 aiguilles 6,4 mm. Avec puller arrière et alimenteur avant. Cette machine est plus précisément destinée aux opérations délicates d'insertion d'élastique à plat ainsi que pour les sous vêtements lorsqu'il est souhaitable de bloquer l'élastique dans l'ourlet plutôt que de le coudre.
- Macchina a base piana 2 aghi passaelastico 6,4 mm. Copertura inferiore, puller ed alimentatore anteriore. Questa macchina con copertura inferiore e' particolarmente indicata per l'inserimento nell'orlo di un elastico piatto su magliera intina.

### TECHNICAL SPECIFICATIONS
